Denim Wine Bottle Bags

NOTE: These directions are to be used in conjunction with the videos.

Instructions:

Iron the part of the pant leg you are going to use.

Measure from the hem up 16" and cut straight across.

The cut edge of the pant leg becomes the bottom of the wine bottle bag and the hem of the pant leg becomes the top of the wine bottle bag.

Turn the pant leg inside out and stitch the cut edge using a 1/4" or a 3/8" seam allowance.

Finish the edge with a zig zag stitch.

While still inside out mark each side edge of the pant legs.

Since the pant leg is not the same width in the back and the front you can not just use the side seams as the side marks.

Using the template provided and following the video instructions, create the corners at the bottom of the bag that give the wine bottle bag its shape.

Stitch across the line drawn using the template.

Cut off the excess denim from the corners and finish the edge with a zig zag stitch

From the top of the Wine Bottle Bag (the hem edge of the jeans) measure down 5 1/2".

Mark at the Center back and just inside the seam lines on each side.

These are the placement lines for the belt loops.

The bottom of the belt loop goes on the 5 1/2" mark.

Stitch the belt loops in place at the top and the bottom of each loop.

Embellish with ribbons, bows, burlap flowers, etc.

Fill with your favorite bottle of wine, champagne or sparkling grape juice and bring as a hostess gift to all your holiday parties!
