

Printing Directions

Welcome to the "Margaret Moorehead Presents..." design series! You have now taken the first steps of a wonderful journey which will take you from Ordinary to Extraordinary!

Due to the nature of these PDFs and the various printers my clients may have, I felt it best to provide printing instructions, should you feel the need for a hard copy of any of the information on this CD. Please keep the environment in mind before deciding to hit "print"!

- All PDF documents require the use of Adobe Acrobat Reader, which can be downloaded for free from the Adobe website. Most likely, you already have it on your computer if you've ever viewed or printed a PDF document before.
- Open the PDF file.
- Click on "File", and on the drop-down menu that appears, select "Print"; the Print window will pop up.
- In the section labeled "Page Handling" in the left column, please make sure "Page Scaling" is set to "Fit to Printable Area" and that the option for "Auto-Rotate and Center" is selected. All files provided on this CD are intended for standard 8.5" x 11" printing paper.
- *- For multiple-paged printouts created from PowerPoint slides, selecting "Multiple Pages Per Sheet" from the "Page Scaling" drop-down menu and including multiple slides per sheet may save you ink and paper.

Selecting other printing options may cause a printout that is cut off at the top and bottom - while none of the content will be affected by this, I wanted you to have the best experience possible. By following these instructions, you should have beautifully printed instructions and inspirations for your projects!

Enjoy!

From my sewing machine to yours....happy creating!

Margaret
