

Margaret Moorehead Presents...

GRAND BEGINNINGS

FYI...

Thank you for purchasing Grand Beginnings, the best background CD on the market!

This CD was first produced in 2009. Since it was introduced, there have been a variety of new hoop sizes introduced in the Sewing Machine Market. The 2010 edition has been updated to include these new wonderful hoops.

When starting to work on this design collection, I spent many hours researching hoops and digitizing each of the 7 different background designs for 35 different hoops. The reason for this is that not all of these background designs can be successfully resized on all resize programs, and I think you deserve to have great results for all your different projects!

NOTE: Not all the hoop sizes that I have given you are available for all the machines. I decided to include all sizes in all formats so you could choose any size you wanted.

The stipple and petite stipple are available in several sizes, but not all 35 hoop sizes, due to the fact that these are very simple to resize and the results are very successful in all the programs I tested.

Lattice is available in only one size.

My goal is to make your experience with Grand Beginnings the best that it can be, so please do not hesitate to contact me with questions, comments or concerns at any time.

I would also love to see photos of your projects!

Thanks again for purchasing this product and above all else...

Enjoy!

Margaret Moorehead
