Website: Has information on it, videos, products, tutorials, designs, memberships.....
BUT....what if somebody has all those products and they never put them out for anyone to see? They just keep them hidden or in storage and you can never see them.

That is what a website is without web hosting

Web Hosting: Is storage space and access for websites....for all your information. You will be able to be seen on the internet. People will be able to purchase your products, read your information, download your patterns etc. But how do they know where to get those product?

That is where your Domain Name comes in

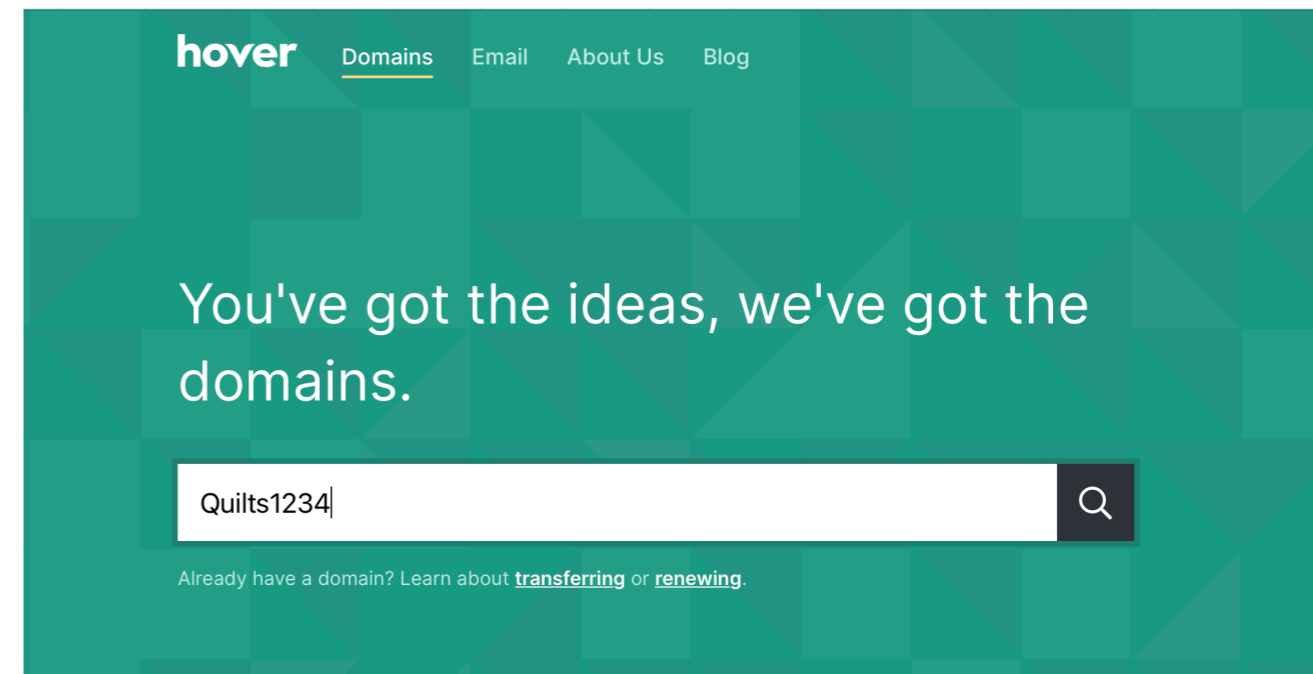

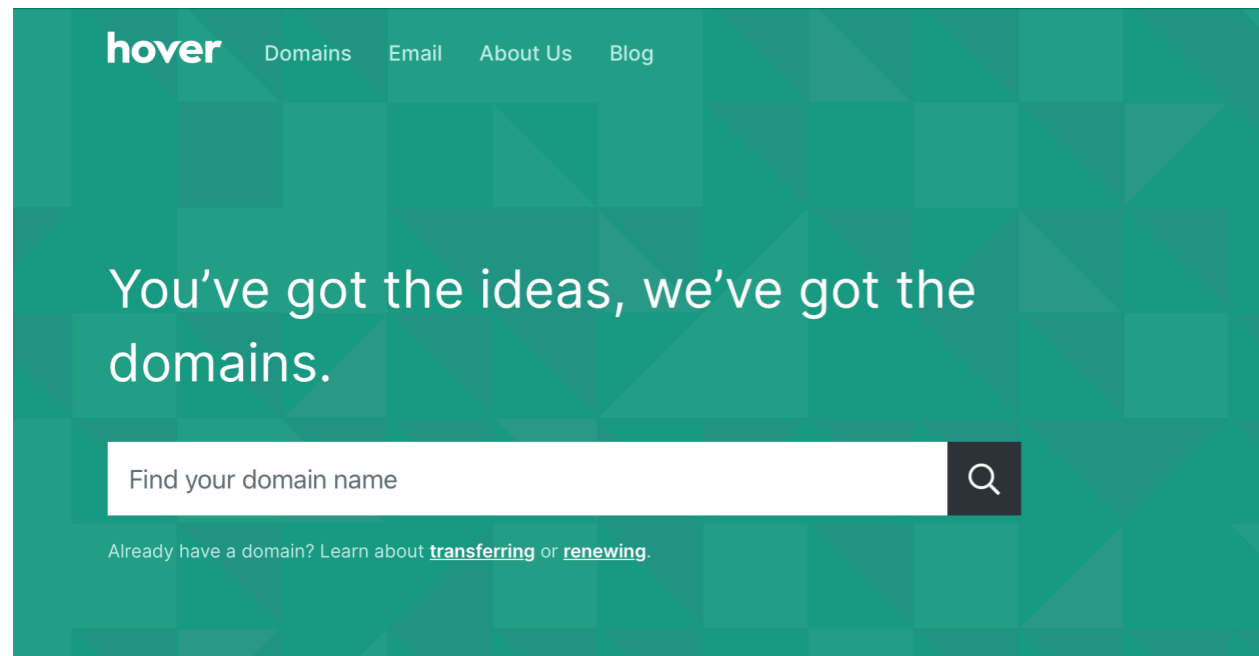

Domain Name: The letters and numbers that are typed into the address bar of your web browser that takes you to the website you want to view/interact with

The screenshot displays a website builder interface. At the top, a navigation bar includes 'Home', 'File', 'Resize', and various editing tools. The main workspace is divided into a left sidebar and a central preview area. The sidebar, titled 'Templates', shows a grid of website templates. A pink arrow points to a template titled 'Marketing for Startups'. Below the grid, the 'Template style' section shows 'Codec Pro' as the selected theme. The central preview area shows a live view of the 'Marketing for Startups' website. The website has a dark header with the text 'EXEMPLARI MARKETING'. The main content area features a large image of three women in a meeting, with the headline 'Marketing for Startups' and a sub-headline 'We do all the research, strategy, design, and execution so you can focus on your product.' The bottom of the preview area has a '+ Add page' button. The interface also includes a bottom status bar with 'Zoom 69%' and other utility icons.

Backend of website

The screenshot shows the WordPress dashboard for a website named 'Shop - Virtual Sewing Guild'. The interface includes a left-hand sidebar with navigation menus for Dashboard, Home, Updates, Clicky Analytics, Flatsome, Jetpack, Posts, Portfolio, Media, Pages, Comments, UX Blocks, Calendars, Feedback, WooCommerce, Products, Analytics, Marketing, Appearance, YITH, Plugins, Snippets, Users, Future, Tools, All-in-One WP Migration, Settings, SG Security, Use-your-Drive, Wordfence, Instagram Feed, LiteSpeed Cache, and Collapse menu. The main content area features several widgets: a WordPress update notification for 6.0.3, a Jetpack activation prompt, a theme recommendation for 'Contact Form 7', a WooCommerce integration notice, a database update confirmation, and a congratulatory message for creating a membership plan. Below these are four primary widgets: 'Site Health Status' (Good), 'Quick Draft' (with title and content fields), 'At a Glance' (showing 44 posts, 159 pages, and 968 comments), and 'Activity' (listing recent posts like 'Romantic Pillows' and 'Machine Feet Part 3 Webinar'). On the right side, there is a 'Wordpress Events and News' widget listing upcoming events like 'WordPress Roundtable' and a 'Drag boxes here' area for widget placement.

The screenshot displays a website editor interface. On the left is a dark sidebar with various editing tools categorized into Text, Layout, Icon, Link, and Advanced. The main workspace shows a website preview for 'VIRTUAL SEWING GUILD'. The website has a pink header with navigation links like 'HOME', 'WELCOME TO THE SHOP', 'MEMBERSHIPS', and 'JENNY HASKINS'. A central heading asks 'ARE YOU READY TO TAKE YOUR SEWING SKILLS TO THE NEXT LEVEL?'. Below this is a promotional section for a 'Virtual Sewing Guild Premium Membership' featuring a photo of Margaret Moorehead and a list of benefits. A 'BUY NOW!' button is prominently displayed, with a green arrow pointing to it from the editor's 'Button' settings panel. The editor panel shows the button's text is 'Buy Now!', its style is 'Shade', and its size is 'X-Large'. Below the button, there are two columns of text detailing the membership and quilt project features.

Process

- Someone goes to your website
- They select a product
- They put it in the cart
- They go through the checkout process
- They automatically get the downloadable information they purchased

- The shopping cart works with the payment gateway to take the payment
- Some/most payment gateways and/or shopping carts will automatically send a receipt
- Some systems have a link to get to the product they just bought so they can download information
- In this little example when the product was created it was flagged as part of a membership area.
- The system will now allow the customer access to the secure area. This is all done automatically behind the scenes so you don't have to do anything
- Your newsletter system might be triggered to send out a personalized email with added information
- You have a happy customer!

Membership Areas

Benefits

- You have an area to store great information that only those that have paid for that particular product can access.
- It's all automated
- Customers can come back over and over again to view their information
- Customers are returning to your website so they are right where they need to be to make a purchase, and google likes active websites
- If you have any updates or added information the customer can go directly to the membership area to get all the updated info
- Once it is created you can sell that "membership product" over and over again
- The customer likes knowing they can just go to the site and not worry about having their computer crash, or loosing their files

**Put quality information in the Free Membership Area
so the customers can get a taste of the great
information you provide.**

- If you sell designs giving a free design is a great way for them to see the quality of your designs
- If you teach classes (in person or online) put a good, but short class, in the free area so the customer can experience your teaching style, your written instructions etc.
- If you do Facebook events put a recording of the event to entice them to join you on Facebook
- If you have webinars put a webinar recording in this FREE area
- Make sure you provide great information here so they will want more and purchase what you are selling

Inspiration!

Some things just trigger memories and this dictionary is one of them.

As a kid when I asked "How do you spell....."
My dad's answer was "Look it up in the dictionary"

Many years later, I came upon it.... the well used dictionary of my
childhood.

The cover for the spine was completely gone and the corners ragged,
however, I just couldn't part with it....It sparked beautiful memories.

"Jumbo ric rac" was created from fabric to cover the spine,
A beautiful flower and butterfly were stitched out as a free standing
appliqué.

A bit of time, glue and creativity were added,
and now my beautiful dictionary
sits proudly on a shelf!

Dear ##SubscriberFirstName##

Inspiration!

Decorative stitches create a plaid background.
Wonderful appliqué embroideries embellish the corners.
Handles transform a picture frame into a tray!

How's that for creative!

From my sewing machine, to yours...Happy Creating!

Other Mics. Info

- You can personalize the email by inserting the name of the person you are talking to, this can be done anywhere in the newsletter, not just the beginning
- You can schedule emails in advance
- You can see all your stats, how many people it was sent to, how many opened it, how many clicked on a link
- Some systems allow you to send emails to anyone who hasn't opened an email...this varies from system to system
- Not every email will be delivered to every person. Sometimes the recipients email box is full, or there is a server problem. Some systems allow emails to bounce 3 times, or 5 times or 7 times and then they delete them. Some systems remove them right away, and some systems never remove them. Be sure to look at your numbers and make sure the emails are being delivered.
