

# Jenny Haskins ACADEMY of ACCREDITED QUILTERS

BECOME A LICENSED JENNY HASKINS QUILTING INSTRUCTOR

## Techniques

Before you start any major project make sure you have the time and space to complete it. Plan ahead, have a goal, decide on a completion date, decide your color palette (threads and fabric) and make sure you have all your products (and know them well) in stock and your equipment is functional.

# Techniques

There is nothing more frustrating than getting half-way through a project and run out of stock or find your equipment needs looking at. This means any equipment or stock in your sewing studio from scissors, pins, needles (both machine and hand sewing), threads, irons (steam and mini), heat-cutting tools, stabilizers and batting – the list is endless, so check out the Materials list!

# Techniques

A double-sided quilt;  
flat pieced with the  
*Jenny Join* and  
introducing Jenny's  
latest technique  
*Haskins Floating Piecing*.

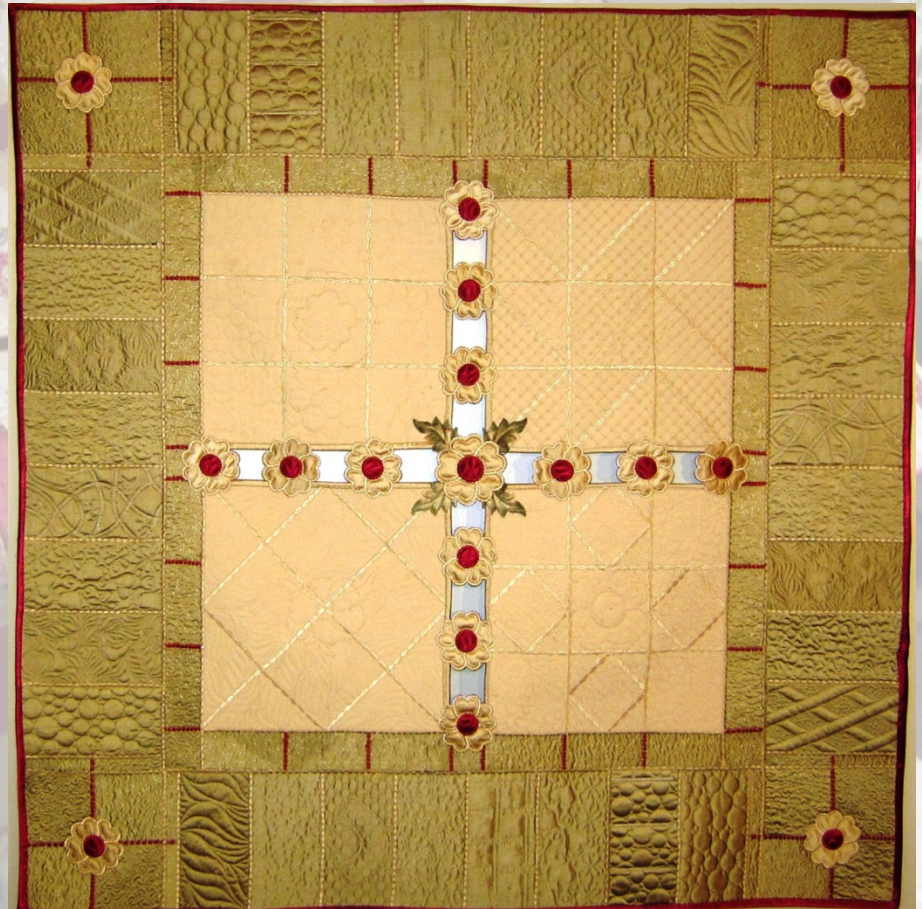

FINISHED SIZE

43 1/2in square
