

Flip Flop Flag

Margaret Moorehead's

VIRTUAL SEWING GUILD

Flip Flop Flag

Sit and Sew

Virtual Hands On Class

Supply List:

- Fabric for flag front
- Fabric for flag back
- Fabric for both flip flop (appliqué)
- Fabric for the strap on the flip flop (appliqué)
- Embroidery Thread
- Bobbin thread/Pre-wound bobbins
- Construction Thread

Stabilizers and fabric prep products:

- Tear Away Stabilizer
- Fusible web (Example wonder under) to fuse to the back of the appliqué fabric
- Fusible Knit Interfacing, Jenny Haskins Sheer Magic or Sheer Magic Plus, or anything similar to put on the back of the flag fabric that will have the embroidery on it.

Equipment List:

- Machine in good working order
- Iron
- Mini Iron (optional)
- Pressing cloth (I use a piece of muslin)
- Rotary Cutter, Ruler and Mat
- Good scissors to trim the appliqué fabric
- Water soluble marking pen that can be ironed over **Be sure to test your marking pens prior to starting your project to be sure that after they are ironed over they will still disappear*
- General Sewing Supplies

If you are intending to sew along with me during our Live Virtual Hands on Class, you will need to have the things on the following page ready when the class starts.

Flip Flop Flag

Fabric, Batting Stabilizer	Quantity	Size	Notes
Fabric for flag	2	20" h x 12" w	<p>Have the fusible knit interfacing (or similar product) fused to the back of the fabric that will be the "front" of the flag</p> <p>Have the Horizontal and vertical centers of the fabric for the front of the flag marked with long straight lines</p>
Fabric for Flip Flop Appliqué	2	8" h x 4" w	Fused with fusible web such as wonder-under
Fabric for the Strap of the Flip Flop Applique	2	5"h x 5"w	Fused with fusible web such as wonder-under
Tear Away Stabilizer	Enough for 4 hoopings		Enough for 4 embroidery hoopings. Be sure the stabilizer will be large enough to extend beyond the hoop so we can pin our flag fabric to it to keep it in place as we are using the basting feature on our machines.

Flip Flop Flag

Thank you for joining me on this adventure. As you know, this is the first time I am doing a “live virtual event” where we will all be working on the same project. Please be patient with me if things do not go as planned. Just as in an “in person” class, things get forgotten or overlooked, and unexpected circumstances pop in for a visit. I have “planned” for this to be done in two hours...mainly because my internet is not the greatest...if we need to schedule a follow up class we can do that, so please just come and plan on having fun...we will work out the rest as we go.

But to help increase our success here is what I am asking you to do or have ready prior to the class.

- Have all your sewing supplies organized and ready to use**
- Test your scissors to make sure they will cut your fabric nicely**
- Make sure your machine is cleaned and in good working order**
- Have the designs loaded onto your machine**
- Have your machine threaded with the first color for the project...”Summer Fun” is what we will be stitching first**
- Know how to use the “basting feature” on your machine**
- Have your fabric cut to size** (See above)
- Have your fabric “prepped”**. (Have the knit interfacing fused to the back of the fabric that will be the front of the flag. Have the fusible web fused to the back of your appliqué fabrics)
- Have your fabric marked** (Flag front fabric: horizontal and vertical centers marked)
- Have all the embroidery threads you are going to use chosen, and know what thread will be used for each section of the embroidery** (I used one color for the entire embroidery design)
- Wind a bobbin of construction thread and have the spool of thread and the bobbin ready to use**
- I hope to start exactly at 1:00, so please be sure to join the zoom meeting a bit early so at 1:00 we are all ready to go!**
- As I said before, make sure your sense of humor is handy, because who know what might happen when we are all LIVE and unfiltered!!!!**
