

Ruling Your Ruler

Preparation

OOPS!

- Get out your rotary cutter, ruler and mat. You're going to cut three 4" x 4" squares. 1. Always have your ruler on the "outside" of the line. 2. Always have the ruler on the "inside" of the line. 3. Always have your ruler "centered" on the line.
- Using your ruler and fabric marking pen mark the horizontal, vertical and diagonal lines on one of these squares, or if you want to mark a larger square and then stitch an embroidery design on it!
- Take a picture of your threads
- Post your picture and comment about the process

**Today we
finish it up!**

Day 5 BluePrint

1. *COMPLETE THIS BLUEPRINT.*

Reading this Blueprint isn't enough to to change your results. You CAN get the results you want by taking the time to do this exercise now, understand it and internalize it so this skill will be ready to use in future.

2. *POST YOUR PICTURE IN THE FACEBOOK GROUP*

Can't wait to hear if you think you will need to be this precise all the time!

3. *POST OUR COMMENTS IN THE FACEBOOK GROUP*

Let's share with everyone what you discovered as you worked on this BluePrint

4. *Update your GPR-S*

5. *Most importantly....enjoy the process!*
