

Part 1 Assignment

- Print out Part 1 Assignment Sheet
- Print out Part 1 Instructions
- Print out Fabric Tracking Worksheet
- Gather Supplies
- Create a block with twin needle meandering lines
- Create a block with twin needle grid
- Sew a 1/4 seam with 2 pieces of fabric that have been backed with fusible batting.

Note: For this assignment you do not need to do anything more than the twin needle work. The twin needle grid work can be done on the diagonal or on straight of grain. Video instructions show it done on the straight of grain for ease if you are new to this technique. If you would like to do the quilting or the little single pattern satin stitch ball you can.
